Hiring Manager's Name
(Company Name)
(Company Address)
(City, State, Zip Code)

Dear Hiring Manager,

I am writing to express my interest in the Full-Stack Developer position. As a Computer Science major at Kean University with 2.5 years of hands-on experience in both front-end and back-end technologies, I am positive about developing adaptable and user-friendly web apps. has provided me with a strong foundation in programming, web development, and software optimization.

In my time at Kean University, I took courses in data structures, computer programming, and discrete structures while maintaining a 3.4 GPA. These studies have prepared me to face real-world software development challenges through a variety of projects. For example, I created a Virtual Monster Raising Game in Python, utilizing object-oriented programming principles, input validation, and error handling to ensure smooth gameplay. In addition, I created a Tic-Tac-Toe game with HTML, CSS, and JavaScript, which required creating a responsive, user-friendly interface and using JavaScript for dynamic game logic. These projects demonstrate my ability to work on the entire stack, from front-end design to back-end logic.

I am eager to bring my programming expertise, creativity, and collaborative mindset to (Company Name) where I can continue growing as a Full-Stack Developer.

I look forward to the opportunity to discuss them further in an interview. feel free to contact me at 555-666-1243 or via email at orkakalds3@gmail.com Thank you for your time and consideration

Sincerely,
Orka Kalds
